HANSA CARE 7140 ECO

HYDROPHOBIC MULTI-TALENT

HANSA CARE 7140 ECO

Emulsifier and preservative free water-borne solution of reactive organo-modified siloxanes

HANSA CARE 7140 ECO is a versatile flourcarbon free impregnation agent. It can be used to impregnate numerous substrates and surfaces like varnishes, leather, wood, mineral grounds or glass. Moreover it's also suitable for hydrophobic impregnations for synthetic fabrics. Easy to apply for example as wash-in impregnation in the washing machine. The complete impregnation effect is already achieved by drying at room temperature.

KEY FEATURES

- ▶ Water repellency
- ▶ Durability
- ▶ Color depth and color restoring
- ▶ Softness and smoothness
- ▶ Flourcarbon-free
- ▶ No fixation/heat necessary

KEY APPLICATIONS

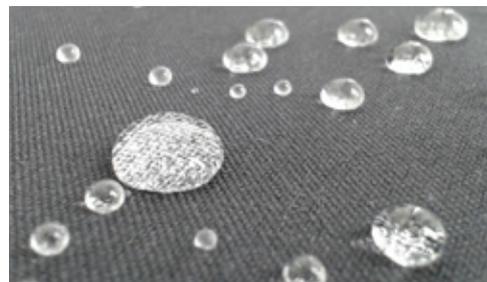

- ▶ Floor Care
- ▶ Leather and Furniture Care
- ▶ Fabric Care
- ▶ Kitchen and Sanitary Cleaner
- ▶ Car Care

RECOMMENDED DOSAGE / USAGE

- ▶ 1-10 % Wood impregnation, mineral surfaces
- ▶ 1-10 % Polishes and sealants for paint and glass
- ▶ 10-20 % Leather impregnation, textile, soft-top
- ▶ 20-30 % Wash-in impregnation for functional clothes

PRODUCT CHARACTERISTICS	
Appearance	Yellowish liquid
Non-volatile content	~ 15 %
pH value	4-5
Ultra low cyclic content*	Yes
MIT/BIT/Paraben-free	Yes

* D4 / D5 / D6 < 0.1 %
